SUMMIT DIAGNOSTICS

STEPPING UP TO STOP THE
OPIOID EPIDEMIC

SERVICES

Summit customer quality plan makes utilizing our services easy and hassle free.

- Convenient low priced Point of Care Cups
- Reliable Confirmation Services
- Flexible Reporting Systems
- 24 - 48 hour turnaround time

EDUCATION

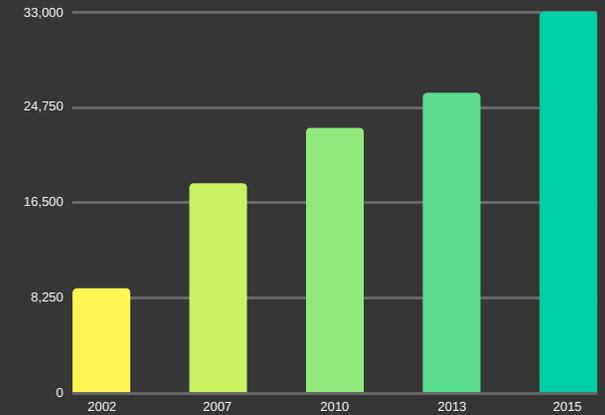

At Summit we believe that the best weapon to defeat the Opioid Epidemic is education. Our Partnership with Recovery Plus Magazine provides a quarterly publication to our clients. In addition we support our clients with many educational tools to help clinicians understand the changing environment of addiction and recovery.

THE UNFORTUNATE TRUTH

The testing industry has a “black eye” from over utilization of testing and large bills that affect healthcare. Recent changes in how payers, both public and private, reimburse labs for testing has affected the number of tests that can be done and paid for.

For the last decade Summit Diagnostics mission has been to support clinicians with a comprehensive testing menu, quick turnaround time, and professional service. As a leader in low cost, quality, CLIA waived POC products through lab confirmation, we put the needs of our customers first.

PRESCRIPTION DRUG DEATHS FROM OVERDOSE

FENTANYL / CARFENTANYL THE BIGGEST THREAT TO THE US HEALTH

According to the New York Times, drug overdose deaths have exceeded 59,000 in 2016. The largest annual jump ever recorded in the United States. Evidence has suggested the problem has continued to worsen in 2017. Over 2 million americans are estimated to be dependent on opioids. In addition, 95 million americans have used prescription pain medicine in the past year.
